

- 26 Aug '71 very old doc (spring '70) about 'system's system'
- 1 Aug '71 picture of disk process
- 22 July '71 Jones suggestion for using ECS test set req.
- 22 July '71 (info from 19 May '71) ECS queue analyzed
- 8 June '71 proposal for system subprocess testing
- 6 June '71 Ask user, find, & trace subprocess calls on CP
- 5 May '71 space command
- 5 May '71 C.I. projects
- ? list of BEADS errors

- 17 Mar '71 Major (immediate) disk system problems  
15 Mar '71 Immediate disk system mapping up  
15 Mar '71 Sketch of disk system status  
~ Mar  
~~Feb~~ '71 allocation block, Mark III proposal (signed)  
2 Feb '71 Proposed disk accounting action (Dave

- 7 Dec '70 Peripheral Device Processor preliminary specs (Karl)
- 9 Dec '70 Bead naming conventions - 2 part names,  
dynamic name tags for objects other than  
disk files; Bead-like directory.  
Special scan list for second part of name if  
not null or current user.
- 5 Dec '70 Command Processor parameters, syntax & semantics
- 4 Dec '70 Parameter handling by Command Processor - description  
of algorithms; pre-automated interrupt  
inhibition at call).
- 30 Nov '70 New look in call stacks
- 24 Nov '70 Parse handling by Bead 4.1
- 18 Nov '70 New look in call stacks (contains automated  
interrupt inhibit proposal)
- ? Some descriptions of Gene's stuff
- 11 Sept '70 Tentative Basic Command Processor -  
1) defines scan list of directives  
2) list of variables  
+ various properties thereof
- ? System Standard - Jim Gray's minor  
changes to system characters & escape  
conventions
- ? System Initialization & System Part of  
User Initialization - describes builders

29 June 70 Directories (part)

? Line Collector - brief desc of Howard's de-Dealed  
line collector + characteristics thereof

? Interrupts - brief page made during redesign of

9 July 70 Low load disk system <sup>interrupts</sup> software (Bruce + Dave)  
← 1 June 70 Dump Load - short spec of disk dump load problem

? User Interface engineering - brief, incomplete requirements

30 March '70 Work remaining on ECS system  
CPU time proposal, mark II  
AB design, mark II

? Bruce's proposal for linear priority scheme  
using class codes

? Proposal for a batch system

7-6-70 TSS Display Driver, Revision A

30 April '70 Proposal for disc subprocess descriptors

~~19 March '70~~

23 April '70 Open + Close - rep of various directory obj +  
what open + close does to them.  
(Total ECS obj + ECS goodies!)

? TSS Display Driver (Kith)

17 April '70 Directory actions, general  
access, creation, destruction of  
ownership entries, bad links, soft links

17 April '70 Directory structure  
accounts, entries, locating entries  
by name, object, access list,  
scratches bit

17 April '70 Directory actions, specific

3 March '70 Disk Process structure - very early directory  
stuff

? Disk actions, ~~funny~~ <sup>working</sup> disk space vs form read,  
magic vs manual pseudo-class fragment

12 March '70 Proposal for ECS return with parameters

12 March '70 " " " creation of col of specified  
type

19 Feb '70 directory object description

22 Jan '70 Objects in directories

5 Mar '70 Block parameters, funny return proposal

5 Mar '70 Global object proposal

5 Mar '70 ECS goodie proposal

19 Feb '70 Subprocess description proposal
